

PRINCE2™ Practitioner Certification

Duration

5 days (Instructor-led)

Introduction

This course will provide delegates with a complete and practical understanding of how to apply the PRINCE2™ methodology in any number of different scenarios. It includes the preparation for, and the sitting of, the examination leading to the PRINCE2™ Practitioner Certificate, which is highly prized among employers and project managers alike.

The course objectives include the practical implementation of the method and attention is paid as to how the method can be varied to suit many different types of project. Care is also taken to show delegates how to ensure the administration of the method is at a level appropriate to the project.

Audience

Project Managers, Project Consultants, Team Managers, Project Planners, Project Estimators, Project Support Staff, Project Assurance Staff or anyone with an interest in the practical management of a PRINCE2™ project.

Prerequisites

There are no pre-requisites in terms of project management experience, although experience of managing a project will be a distinct advantage. Prior to the course, each delegate will be sent the PRINCE2™ manual, suggested pre-course work and a reading list, in order that they become familiar with the PRINCE2™ concepts, scenarios and questions. It is essential to the successful delivery of this course that the pre-course work is completed. A large proportion of this pre-course work may be omitted where the delegate has achieved the Foundation Certificate.

Examination

There are two examinations: the Foundation examination and the Practitioner examination.

The Foundation examination:

- 1 hour
- 75 questions
- Multiple Choice
- Closed Book

***In addition, each paper will contain 5 trial questions that will not count towards the candidates' score. The purpose is to test questions before they are used "in anger" and will allow greater development of the database of questions.

The Practitioner examination:

- 2.5 hour
- Objective Test
- 108 possible marks
- 55% pass mark
- Open book (PRINCE2 manual only)

Delegates should be aware that some evening study will be required on all four days, in order to assist in the successful completion of the examinations.

Course Outline

DAY 1 Introduction

Overview
Introduction to Processes, Themes, Techniques
Overview of Processes
Business Case Theme
Starting Up a Project
Organisation Theme
Risk Theme
