### Desktop Deployment Planning Services from Pygmalion

Pygmalion provides a complete solution encompassing envisioning, planning, deploying & project management for the deployment of a business desktop, utilizing Microsoft's Solution Accelerator for Business Desktop Deployment.

### About Microsoft Solution Accelerator for Business Desktop Deployment

The Microsoft Solution Accelerator for Business Desktop Deployment (BDD) delivers end-to-end guidance for efficient planning, building, testing, and deploying of Windows Vista or XP and Office 2003 or /2007.

It helps companies realize a quick return on investment while also setting new standards for reliability, performance, security, and ease of use.

The Solution Accelerator for BDD solution contains guidance, sample templates, and technology files (such as scripts and configuration files). It presents deployment guidance as *feature team guides* that thoroughly explain each deployment process. The guidance in the Solution Accelerator for BDD is structured according to the feature teams and processes that Figure 1 describes.
