

MCTS Certification Package

Managing Projects with Microsoft Office Project 2007

Microsoft Certified Technology Specialist

The MCTS: Microsoft Office Project 2007 credential for managing projects validates the skills of project managers who use Office Project 2007. Candidates for this credential may work on projects as a team member, project lead, project manager, scheduler, or another role that requires the ability to formulate well thought-out project plans and to manage projects effectively. MCTS candidates may be responsible for the scheduling, estimating, coordinating, controlling, budgeting, and staffing of projects. Candidates may also provide support to other Microsoft Office Project users. Candidates should be familiar with key project management concepts and terminology.
