

IT headaches? Relax...

Microsoft
Online Services

Let Microsoft Online Services take the strain

Microsoft® collaboration and communication tools are designed to help you succeed. And now, Microsoft and Pygmalion offer them as Online Services – fully hosted in world-class data centres from Microsoft. Your organisation will be supported by a high-performance team who can keep your software up-to-date and optimised, helping you enjoy value from your technology investments even faster. When you work with Microsoft and Pygmalion, you'll have the best combination for business success.

Microsoft® Online Services include Microsoft Exchange Online, Microsoft SharePoint® Online, Microsoft Office Live Meeting and Microsoft Office Communications Online. Relax with:

Streamlined communications. Your users can work with the same rich clients they already know and use – all within an integrated experience, from virtually any device, in almost any location.

Simplified management. Provide the tools your organisation needs without requiring ongoing upgrades or installations. Microsoft Online Services put our IT resources to work for you.

Business-class security and reliability. Work with confidence knowing that these Online Services from Microsoft run on a network of world-class data centres protected by multiple layers of security and operational best practices – all while providing 99.9% uptime.

Pygmalion will offer assistance with:

Procuring Microsoft Online Services.

We can provide valuable information and help you throughout the sales process.

Deployment and migration. Making the transition to a hosted service is even easier with a partner to help with implementation and the migration of your users.

Customisation and integration. Being able to customise a solution for your organisation that integrates hosted services with existing on-premise applications is a unique advantage of working with *Pygmalion* and Microsoft.

Managed services. We can also help you provide managed services including, but not limited to:

- Training and support for your users
- User management
- Support for IT professionals
- Business consulting
